📍 New Delhi

SUMMARY

I am a passionate Android Application Developer with over three years of experience in designing, developing, and deploying high-quality Android solutions. Proficient in Java and Kotlin, with strong skills in Firebase, SQLite, and API integration.

Currently transitioning towards an AI Product Manager role, with hands-on learning in AI-driven products, data-informed decision making, user problem discovery, and collaboration with engineering teams to build scalable, user-centric AI solutions. I bring a strong technical background combined with growing product strategy and business understanding through my MBA.

EXPERIENCE

Android Application Developer
Visible Infotech Pvt. Ltd.
📅 09/2023 - 05/2025   📍 Okhla, New Delhi

Company focused on mobile and software solutions

- Develop and maintain high-performance Android applications using Kotlin and Java
- Collaborate with cross-functional teams to define, design, and ship new features
- Optimize application performance and enhance user experience
- Integrate third-party APIs (SQL Query based API) and Firebase services
- Built Android apps for field users and production environments for Sugar Mills and Steel Plants
- Collaborated with cross-functional teams to translate business requirements into scalable product features

Jr. Android Application Developer
Dtechex Technologies
📅 09/2022 - 07/2023   📍 Remote, Dehradun

Technology company specializing in software development

- Develop and maintain high-performance Native applications using Kotlin and Java
- Collaborate with cross-functional teams to define, design, and ship new features
- Optimize application performance and enhance user experience Integrate third-party APIs

Android Developer (Intern to Engineer)
JPR Technosoft LLP
📅 08/2021 - 07/2022   📍 Hybrid, Noida

Software development company focused on mobile applications

- Learned full life-cycle Android development

KEY ACHIEVEMENTS

🎖️ **Sugar Farmer Application Deployment**
Successfully developed and deployed applications for field users in various industries, enhancing operational efficiency and client satisfaction

🏆 **High-Performance App Development**
Contributed to the development of multiple high-performance Android apps that improved user experience and functionality

AI PRODUCT MANAGEMENT LEARNING & PRACTICE

- Learning fundamentals of AI/ML concepts for Product Managers (models, training, inference, limitations)
- Understanding problem framing for AI products.
- Learning data-driven decision making, KPIs, success metrics for AI features.
- Exposure to AI product lifecycle: ideation → experimentation → iteration → scaling
- Collaborating mindset with engineering, design, and business stakeholders
- Exploring AI-powered use cases in mobile applications and enterprise workflows.

SKILLS

Code Review   Android SDK

Android Studio   Android Studio

Kotlin   Firebase   Java   XML

MVC/MVVM   Clean Code   SQLite

SQL Server Management   Retrofit

Data Binding   Shared Preference

Visual Basics   View Binding

PRD   Basic AI/ML

Agile & Cross-functional Collaboration

EDUCATION

MBA

### University of Delhi

📅 2024 - Present

B.A English (H)

University of Delhi

📅 2020 - 2024

12th (Science)
